Approved For Release 2000/05/10 : CIA-RDP78B04747A003100010044-9

SECRET

TPDS-99-62
9 July 1962

MEMORANDUM FOR: Chief, Administrative Staff, NPIC

ATTENTION: Chief, Security Branch, NPIC

THROUGH: Executive Director, NPIC

SUBJECT: Code-Word Clearances for [redacted] Itek Corporation

REFERENCES: (a) Memorandum from Chief, TP&DS, to Chief, Security Staff, NPIC, dated 14 July 1961; subject: Security Clearance - [redacted] (TPDS 74-61)

(b) Memorandum from [redacted] to Chief, TP&DS, dated 6 July 1962; subject: Itek Contract RB425, T.O. #4, DPD-DDP/SC-1

1. In answer to our request, made 14 July 1961, for clearances for [redacted] of the Itek Corporation, we were recently informed that he now has been granted Agency TOP SECRET clearance.

2. The object of the clearance request was to enable [redacted] to modify the spatial filtering image enhancement device built by Itek for us. In order to design the modifications properly, he must be able to examine the type of material we intend to use in it. He would be concerned primarily with the technical quality of the material and not its substantive content. However, in order to provide him a wide range of sample materials for examination, he should have the T-KH code-word clearances.

3. It is therefore requested that approval be granted for [redacted] to be briefed into the T-KH systems at the earliest possible time.

[redacted]
Chief, TP & DS

cc: Executive Director, NPIC

Attachment: Reference (b)

NPIC/TPDS: [redacted] jam (9 July)
